

Fuencaliente de La Palma

Las Calderetitas Viewpoint

English edition

Updated on 10 September 2026

The Mirador de Las Calderetitas viewpoint is in Las Indias, on the road that descends from the district to La Zamora beach, on the south-west coast of Fuencaliente. From its balcony you can see the coastal platform of La Costa, with its banana plantations, the beaches of La Zamora Grande and La Zamora Chica and the sea of the Marine Reserve, and at dusk the sun sets right in front of the viewpoint.

Next to the viewpoint there is a barbecue area with tables, so it also serves as a stop for a meal. It is one of the stops on the Viewpoints Route and is a short distance from the beach, which is reached down the same road.
